PATENT TRADEMARK OFFICE

Docket No.: 5432/1H602US1

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of: Thomas RUHLAND et al.

Serial No.: TBA (Continuation of 09/677,851)

Filed: Concurrently Herewith

For: A SOLID SUPPORT BASED ON SELENIUM USEFUL IN SOLID PHASE
SYNTHESIS

INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

In order to comply with 37 CFR 1.97 and 1.98, attached hereto is a copy
of Form PTO-1449. Copies of the documents listed thereon may be located in the file
for parent application serial no. 09/677,851.

The present Information Disclosure Statement includes references cited in the International Search Report dated July 26, 1999, for International application no. PCT/DK99/00179. A copy of the International Search Report accompanies this IDS.

In accordance with MPEP Sections 609 and 707.05(b), it is requested that each document cited (including any cited in applicant's specification which is not repeated on the attached Form PTO-1449) be given thorough consideration and that it be cited of record in the prosecution history of the present application by initialing Form PTO-1449 next to the document. Such initialing is requested even if the Examiner does not consider a cited document to be sufficiently pertinent to use in a rejection, or otherwise does not consider it to be prior art for any reason, or even if the Examiner does not believe that the guidelines for citation have been fully complied with. This is requested so that each document becomes listed on the face of the patent issuing on the present application.

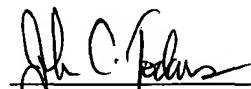

The present Information Disclosure Statement is being submitted in compliance with 37 CFR 1.56, but the citation of such document is not to be construed as an admission that such document is necessarily relevant or prior art. No representation is intended that the cited documents represent the results of a complete search, and it is anticipated that the Examiner, in the normal course of examination, will make an independent search and will determine the best prior art consistent with 37 CFR 1.104(a) and in the course of each search, will review for relevance every document cited on the attached form even if not initialed.

This Information Disclosure Statement is being submitted concurrently with a Continuing Application Transmittal. As such, it is believed that no additional fee is due. However, if the Commissioner determines that a fee is due, the Commissioner is hereby authorized to charge the deposit account no. 04-0100 for any deficiency.

Early and favorable consideration is earnestly solicited.

Respectfully submitted,

Dated: July 14, 2003

John C. Todaro
